

Amines

- Focus on becoming a one-stop supplier, offering products typically available from only a few providers.
- All products are **EU REACH** registered.
- Maintain **exclusive** partnerships with suppliers.
- Follow **market trends** and continuously update our portfolio with the newest products.
- Offer **flexible delivery options**, from **1 pallet to ISO tank quantities**.

Product	CAS	Epoxy CASE	PU	Polyurea	Packaging available
PEA 230	9046-10-0	×			IBC (950 kg), drums (195 kg), iso tank
PEA 400	9046-10-0	×			IBC (1000 kg), drums (200 kg)
PEA 2000	9046-10-0	×		×	IBC (1000 kg), drums (200 kg)
PEA 403	39423-51-3	×			IBC (1000 kg), drums (200 kg)
PEA 5000	64852-22-8	×		×	IBC (1000 kg), drums (200 kg)
MXDA	1477-55-0	×			IBC (1000 kg), drums (200 kg), iso tank
MACM	6864-37-5	×			Drums (190 kg)
PACM	1761-71-3	×			IBC (900 kg), drums (190 kg)
DETDA	68479-98-1	×	×	×	IBC (1000 kg), drums (200 kg), iso tank
DMTDA	106264-79-3		×		IBC (1000 kg), drums (200 kg), iso tank
N4 Amine	10563-26-5	×			IBC (900 kg), drums (190 kg)

MXDA

- Heavy duty anti-corrosion coating
- Industrial flooring
- Marine coating
- Polyamide production (MX6, MXD10)
- MXDI isocyanate production
- Composite materials (used for wind turbines repair)

PACM

- Epoxy flooring
- Composites
- Cycloaliphatic diisocyanate (HMDI / H12MDI)

DETDA

- Spray Polyurea Coatings
- Epoxy resin hardener (pipes or electric laminates)
- Catalyst in PU Cast Elastomers (Wheels, belts) / PU foam (building, insulation)

DMTDA

- Polyurea Sealants
- Epoxy composites (Aerospace)
- Cast PU elastomers
- Indoor sports flooring

N4 Amine (TATA)

- Epoxy resin curing agent
- Crosslinker in epoxy systems
- Additive in construction chemicals
